

## # \*\*STRAY DOGS - DETAILED WORLD OVERVIEW\*\*

\*London, February 2026 - A city divided by class, unified by loyalty\*

---

### ## \*\*GEOGRAPHIC BREAKDOWN\*\*

#### ### \*\*THE PLAZA - Neutral Ground\*\*

\*\*Location\*\*: Geographic center where four school territories converge

\*\*Size\*\*: Approximately 2 city blocks, pedestrian-only zone

\*\*Official Status\*\*: Public space under St. Augustine's Academy jurisdiction

#### \*\*Key Features\*\*:

- \*\*Central Fountain\*\*: Large stone fountain (site of Z-Artist's chalk murals, "Wounded Rose" incident)
- \*\*24-Hour Coffee Shop\*\*: "Grounds & Rounds" - neutral meeting space, no gang colors enforced
- \*\*Vendor Stalls\*\*: 8-12 rotating vendors (food, newspapers, cigarettes, phone cards)
- \*\*Benches\*\*: 20+ public benches (Stray's regular bench: southeast corner, facing fountain, worn wood, carved initials)
- \*\*Open Square\*\*: Performance space, skateboarding area, general congregation point

#### \*\*Unwritten Rules\*\*:

- No violence (enforced by mutual agreement, not law)
- St. Augustine's Prefects monitor but don't interfere unless Academy students threatened
- Police only enter if Academy administration summons them
- Dogs can be present but don't "claim" it (no territorial marking)
- Coffee shop is TRUE neutral (even enemies sit near each other)
- Fountain area is public art space (chalk art allowed, tagging not)

#### \*\*Traffic Patterns\*\*:

- \*\*6-9 AM\*\*: Academy students, morning commuters, Alistair's 6:34 AM patrol
- \*\*12-2 PM\*\*: Lunch rush, all four schools present, highest tension time
- \*\*4-7 PM\*\*: After-school congregation, skateboarding, dealer activity (discrete)
- \*\*10 PM-6 AM\*\*: Nearly empty, Stray's domain, occasional night workers, homeless population

#### \*\*Sight Lines\*\*:

- Academy gates: Northeast entrance
- North Ends: Northwest entrance (unmarked, just where pavement changes)
- West End: West entrance (fancy shops begin here)
- South Ends: Southeast entrance (industrial area transition)

**\*\*Significance\*\***: The Plaza is where worlds collide without exploding. It's the ONLY place grey NEPH jumpsuits and navy Academy blazers coexist peacefully. Breaking Plaza peace would trigger all-out war.

---

### ### **\*\*NORTH ENDS - The Doghouse\*\***

**\*\*Official Designation\*\***: North Ends Borough, London

**\*\*Population\*\***: ~45,000 residents

**\*\*Economic Status\*\***: Working class, high unemployment, systemic neglect

**\*\*Police Presence\*\***: Minimal (4 patrol cars for entire area, slow response times)

**\*\*Stray Dogs Control\*\***: Complete (all 65 members, absolute community loyalty)

### #### **\*\*Key Locations\*\***:

**\*\*1. NORTH ENDS PUBLIC HIGH SCHOOL (NEPH) - "The Doghouse"\*\*\***

- **\*\*Type\*\***: State-funded secondary school (ages 11-18)

- **\*\*Enrollment\*\***: ~800 students (overcrowded)

- **\*\*Mandatory Uniform\*\***: Grey juvenile detention-style jumpsuits (ALL students)

- **\*\*Funding\*\***: Severely underfunded (£3,200 per student vs. Academy's £18,000)

- **\*\*Graduation Rate\*\***: 47% (vs. 98% at Academy)

- **\*\*Staff\*\***: Overwhelmed, underpaid, many gave up years ago

- **\*\*Notable Staff\*\***: Ms. Okoye (welfare coordinator, frustrated but cares)

- **\*\*Daily Schedule\*\***:

- 8:30 AM - Classes begin

- 3:15 PM - Mandatory debrief (attendance tracked, Stray always skips)

- 4:00 PM - Building closes (security removes stragglers)

- **\*\*Stray Dogs Presence\*\***: 30 frontline members in grey jumpsuits with red hand-painted markings

- Chew-toy coordinates all NEPH Dog operations from here

- Red markings = instant recognition (snarling dog logos, "STRAY DOGS" text, paw prints)

- Non-Dogs wear plain grey (marking yourself without being Dog = confrontation)

**\*\*Physical Description\*\***:

- Three-story concrete building (1970s brutalist architecture)

- Cracked windows, peeling paint, graffiti despite repainting efforts

- Metal detectors at entrance (installed 2019, frequently broken)

- Cafeteria serves reduced-price meals (many students' only consistent food)

- Classrooms: 35+ students per room (designed for 25)

- "Yard" = concrete lot with chain-link fence, no grass, broken basketball hoops

**\*\*Atmosphere\*\***: Prison pipeline by design. Grey jumpsuits dehumanize. Underfunding ensures failure. Students aware they're being warehoused. BUT Dogs provide alternative identity - red markings reclaim pride, show belonging outside system's control.

---

## **\*\*2. THE KENNEL - SD Media Headquarters\*\***

- **\*\*Location\*\***: Basement at 47 Marlowe Street, North Ends
- **\*\*Access\*\***: Unmarked metal door in alley, peeling red paint, no signage
- **\*\*You Have To Know It's There\*\***: Locals don't mention it (Silence Protocol)
- **\*\*Security\*\***: Dogs watch entrance, locals report unfamiliar faces approaching

### **\*\*Interior Layout\*\***:

...

[Stairs Down]

↓

[Entry Area] → [Dame's Office] → [Storage/Equipment]

↓

↓

[Main Room] [Bathroom]

↓

[Recording Booth] → [Medical Room]

↓

[Couch Area] → [Editing Stations]

...

### **\*\*Features\*\***:

- **\*\*Recording Booth\*\***: Professional soundproofing, glass window, vocal booth foam, Neumann microphone, isolation, 8x6 feet
- **\*\*Dame's Office\*\***: Desk with three monitors, tattoo equipment (autoclave, ink, needles, flash designs on walls), camera equipment, filing cabinets (locked)
- **\*\*Main Room\*\***: ~600 sq ft, soundproofed walls covered in SD Media posters/album covers/graffiti, worn couch (where Stray slept during Zed's recovery), folding chairs, mini fridge
- **\*\*Medical Room\*\***: Back corner, formerly storage, converted after Zed's drag, basic medical supplies (bandages, antiseptic, painkillers), privacy curtain, cot
- **\*\*Editing Stations\*\***: 4 computer workstations, dual monitors each, video editing software, music production (Logic Pro, Ableton)

**\*\*Atmosphere\*\***: Sacred space. This is where Dogs BECOME. Where K-9 records tracks that change North Ends perception. Where Dame tattoos every new Dog (mandatory). Where high command meets. Where Stray rapped again after years. Where Zed almost died but survived. More church than studio.

**\*\*Who Has Keys\*\***: Dame (master), Chew-toy (operations), K-9 (recording access), Zed (underboss), Snout (elder)

---

### **\*\*3. THE HYDRANT - Red Light District\*\***

- **\*\*Location\*\***: 6-block area in North Ends, centered on Hydrant Street
- **\*\*Workers\*\***: ~40 sex workers (call boys and call girls, both protected equally)
- **\*\*Operations\*\***: Legal grey area (solicitation illegal, but enforcement selective)
- **\*\*Client Base\*\***: Mixed (locals, commuters, some from West End/Academy area)

### **\*\*Protection Schedule\*\***:

...

#### **MORNING SHIFT (6 AM - 2 PM): 3 Dogs**

- Quietest shift, mainly cleanup and security checks
- Chew-toy usually assigns newer Dogs here (training shift)

#### **AFTERNOON SHIFT (2 PM - 10 PM): 3 Dogs**

- Moderate activity, pre-evening rush
- Experienced Dogs, handle negotiation/conflict

#### **GRAVEYARD SHIFT (2 AM - 6 AM): Stray (alone) + Whistle/Needles (floating nearby)**

- Most dangerous: drunk clients (weekend), police activity (weekday)
- Only Stray works solo (Chew-toy negotiated Whistle/Needles as backup)

...

### **\*\*How Protection Works\*\***:

1. Workers pay 15% of earnings to Dogs (industry standard, not exploitation)
2. Dogs screen clients (visual assessment, body language reading, known troublemakers banned)
3. Dogs maintain presence (visible but not intrusive, 3-door radius maximum)
4. Emergency whistle system (workers whistle, Dogs respond within 30 seconds)
5. Escort service (Dogs walk workers home after shift if requested)
6. Medical support (Needles handles basic first aid, STI testing coordination)
7. Legal support (Dame has lawyer contact for arrests, bail, harassment)

### **\*\*Why It Works\*\***:

- Workers are SAFER (violence down 73% since Dogs took over in 2020)
- Fair pricing (15% is reasonable, other gangs charge 40-60%)
- No exploitation (Dogs don't pimp, don't force work, don't control workers)
- Community trust (workers are North Ends residents, Dogs protect neighbors)
- Police can't touch it (Silence Protocol - no witnesses, no testimony)

### **\*\*Notable Locations\*\***:

- **\*\*Hydrant Street Itself\*\***: Main thoroughfare, well-lit (Dogs maintain lights)
- **\*\*The Steps\*\***: Where Stray found Harper week 1, abandoned by West End crew

- **\*\*Three Doors Down\*\***: Where Ash (callboy) was killed on Stray's watch (Stray's haunting)
- **\*\*Safe Houses\*\***: 3 buildings where workers can retreat if threatened (Dogs own these)

---

#### **\*\*4. COMMUNITY LOCATIONS\*\***

##### **\*\*Corner Shops\*\*** (12+ small businesses):

- Run by North Ends families, protected by Dogs
- Pay NO protection money (Dogs protect community, not exploit)
- Owners are eyes/ears (report unfamiliar faces, suspicious activity)
- Nod at Stray when he passes (respect, recognition)

##### **\*\*Marlowe Arms Pub\*\***:

- Dog-friendly establishment (not Dog-owned)
- Snout meets community members here (intelligence gathering, relationship building)
- No violence rule (enforced by Dogs AND community)
- Where older North Ends residents discuss "the young ones" (Dogs)

##### **\*\*Residential Streets\*\***:

- Row houses, council flats, public housing
- Multi-generational families (grandparents, parents, children in same building)
- Kids play in streets (Dogs ensure their safety)
- Community gardens (small plots, residents grow vegetables)

##### **\*\*Havenwood Care Centre\*\*** (CLOSED 2022):

- Former foster home where Stray lived
- Closed under investigation (nature of investigation sealed)
- Building now abandoned, boarded windows
- Records transferred to HM Protective Services (inaccessible)
- Mystery: What were they investigating? Where did other kids go?

---

##### **\*\*NORTH ENDS ATMOSPHERE\*\***:

- **\*\*Visual\*\***: Grey buildings, cracked pavement, graffiti (some art, some tags), laundry hanging from windows, corner shops with metal shutters
- **\*\*Sound\*\***: Kids playing football, music from open windows (grime, dancehall, drill), traffic on main roads, distant sirens
- **\*\*Smell\*\***: Fried food from shops, exhaust, industrial area nearby
- **\*\*Feeling\*\***: Rough but ALIVE. Community looks out for each other. Poverty but not hopelessness. Dogs are visible presence (red markings everywhere), but not oppressive.

##### **\*\*Why Dogs Control It Despite Small Numbers\*\***:

1. **Community Consent**: North Ends CHOOSES Dogs over police/other gangs
2. **Protection Model**: Real safety, not exploitation
3. **Cultural Influence**: SD Media gives youth alternative identity
4. **Silence Protocol**: Community refuses police cooperation (unbreakable loyalty)
5. **Strategic Intelligence**: SEPH Ghosts (14 scouts) + community eyes = total information
6. **Larger gangs would face NEIGHBORHOOD**: Not just 65 Dogs, but entire community (thousands)

---

#### #### **ST. AUGUSTINE'S PREPARATORY ACADEMY - "The Hill"**

**Official Name**: St. Augustine's Preparatory Academy for Excellence  
**Location**: West End borders, overlooks The Plaza  
**Type**: Private independent school (ages 11-18)  
**Enrollment**: ~650 students (selective admission)  
**Tuition**: £18,000/year (plus uniforms, trips, activities)  
**Endowment**: £40+ million (scholarships, facilities, political connections)  
**Acceptance Rate**: 12% (extremely selective)  
**University Placement**: 94% to Russell Group universities (Oxford, Cambridge, LSE, Imperial)

#### ##### **Physical Campus**:

##### **Main Building**:

- Gothic Revival architecture (1890s construction)
- Three stories, stone facade, stained glass windows
- Clock tower (visible from Plaza, bells chime on hour)
- Latin inscription above entrance: "Scientia et Virtus" (Knowledge and Virtue)

##### **Facilities**:

- **Library**: 30,000+ volumes, rare book collection, study carrels
- **Science Labs**: Modern equipment (£2M renovation 2021)
- **Theatre**: 400-seat auditorium, professional lighting/sound
- **Chapel**: Daily assemblies (secular school but traditional)
- **Dining Hall**: Three-course meals, table service for seniors

##### **Athletic Facilities**:

- **Lacrosse Pitch**: Regulation size, stands for 200 spectators (Rax's domain)
- **Rugby Fields**: Two full-size pitches
- **Cricket Grounds**: Traditional English cricket setup
- **Gymnasium**: Basketball court, weight room, climbing wall
- **Swimming Pool**: Olympic-size, heated

##### **Student Areas**:

- **Common Rooms**: Separated by year (Year 7-11 have shared space, Sixth Form has lounge)
- **Prefect Office**: Where Alistair, Nala, Leo work (power center)
- **Student Government Office**: Alistair's domain as Head Boy
- **Courtyards**: Three outdoor spaces (East: smoking area unofficial, South: quiet study, West: social)

#### #### **Uniform & Hierarchy**:

##### **Standard Uniform**:

- Navy blazer (school crest on breast pocket: shield with cross and open book)
- White oxford shirt (tie required: house colors)
- Grey trousers/skirt (pleat requirements strict)
- Black leather shoes (polished daily for inspection)
- **Cost**: £450 for full uniform set (barrier for scholarship students)

##### **Prefect Uniform Additions**:

- Gold prefect badge (worn on blazer lapel)
- Prefect tie (special pattern distinguishing them)
- Authority to discipline students, write citations, monitor Plaza

##### **House System**:

- Four houses (named after saints): Augustine (blue), Thomas (red), Francis (green), Benedict (gold)
- Inter-house competitions (sports, academics, community service)
- House points determine annual shield winner

##### **Power Structure**:

...

Headmaster (unseen in story, delegates to students)

↓

Head Boy (Alistair) + Head Girl (Nala)

↓

Senior Prefects (12 students, Year 13)

↓

Junior Prefects (20 students, Year 12)

↓

House Captains (4 students)

↓

General Student Body

...

#### #### **The Prefect System**:

**\*\*Alistair Delarusso - Head Boy\*\*:**

- **\*\*Jurisdiction\*\*:** Entire student body + Plaza monitoring
- **\*\*Daily Routine\*\*:** 6:34 AM Plaza patrol (clockwork), morning announcements, lunch monitoring, after-school check-ins
- **\*\*Philosophy\*\*:** Genuinely believes in "proper channels" and fairness (but learning "fair" ≠ "equal")
- **\*\*Carries\*\*:** Clipboard (citation forms, meeting notes), prefect handbook, red chalk (from Z-Artist, kept in desk drawer)

**\*\*Nala Regan - Head Girl/VP\*\*:**

- **\*\*Obsession\*\*:** Gossip, social dynamics, relationship speculation
- **\*\*Platform\*\*:** Instagram account (@AugustinesInsider) with 2,400+ followers
- **\*\*Conspiracy Theory\*\*:** Rax and K-9 are secretly dating (posts "evidence" constantly)
- **\*\*Function\*\*:** Comic relief but also DANGER (social media posts could expose Dog operations)
- **\*\*Carries\*\*:** Phone (always), ring light (for perfect photos), notebook (gossip documentation)

**\*\*Prefect Leo Luther - Year 12\*\*:**

- **\*\*Type\*\*:** Power-tripping enforcer (hates scholarship students)
- **\*\*Incident\*\*:** Got drenched in Fountain Incident (Rax's splash), still furious
- **\*\*Attitude\*\*:** Believes grey NEPH jumpsuits = "thugs," uses slurs casually
- **\*\*Problem\*\*:** Represents worst of Academy privilege, will escalate conflicts
- **\*\*Carries\*\*:** Citation book (already filled), superiority complex

**##### \*\*Embedded Dogs\*\*:**

**\*\*Rax Kidd\*\*:**

- **\*\*Cover Story\*\*:** Reformed kid, star lacrosse player #9 ("Wolves" team)
- **\*\*Social Status\*\*:** Popular (golden retriever energy), beloved by teammates
- **\*\*Code-Switching\*\*:** Posh English at Academy, roadman with Dogs (seamless)
- **\*\*Threat Level\*\*:** LOW (nobody suspects him)
- **\*\*Classes\*\*:** Taking A-Levels (Mathematics, PE, English Literature)
- **\*\*Extracurriculars\*\*:** Lacrosse (captain), student athletic council

**\*\*K-9 (Kian Nines)\*\*:**

- **\*\*Cover Story\*\*:** "Reformed" South Ends Juvenile Hall kid, YouTube rapper given second chance
- **\*\*Social Status\*\*:** Known outsider (face tattoos can't be hidden), respected for talent
- **\*\*Transfer Narrative\*\*:** Dame and school administration worked deal (K-9's "success story" looks good for Academy diversity statistics)
- **\*\*Threat Level\*\*:** MEDIUM (people know he's "street" but not that he's Dog)
- **\*\*Classes\*\*:** Taking GCSEs (lower track than Rax, but passing)
- **\*\*Extracurriculars\*\*:** Music production club (uses equipment for SD Media on side)

**\*\*How They Avoid Exposure\*\*:**

- Never wear grey NEPH colors at Academy
- Keep Dog tattoos hidden under uniform (Rax's placement strategic)
- Don't acknowledge each other as Dogs in public (just "friends")
- Rax code-switches CONSTANTLY (makes him seem harmless)
- K-9 plays "reformed kid trying to make it" role perfectly
- Neither has been seen at NEPH (different schools maintain separation)

#### #### \*\*Academy Culture\*\*:

##### \*\*Spoken Values\*\*:

- Excellence, tradition, honor, service, leadership

##### \*\*Actual Values\*\*:

- Maintain class separation, groom future elite, connections over merit
- "Proper channels" = protect privileged, slow justice for others
- Surveillance = "safety" (monitoring Plaza, reporting "suspicious" NEPH students)

##### \*\*Student Demographics\*\*:

- 87% white British (vs. North Ends 34% white British)
- 92% from households earning £80K+/year
- 67% have parents in politics, law, finance, medicine
- 8% on scholarship (including Rax and K-9 technically, via Dame's maneuvering)

##### \*\*Relationship to Other Schools\*\*:

- \*\*NEPH\*\*: Viewed as "problem school," students seen as potential criminals
- \*\*West End High\*\*: Peer institution, friendly rivalry
- \*\*SEPH\*\*: Ignored (not prestigious enough to care about)
- \*\*Dogs\*\*: Administration unaware Dogs exist as organization (thinks it's "gang rumors")

---

#### #### \*\*SOUTH ENDS PUBLIC HIGH (SEPH) - "The Yard"\*\*

\*\*Official Name\*\*: South Ends Secondary School

\*\*Location\*\*: South Ends Borough (industrial area)

\*\*Type\*\*: State-funded comprehensive (ages 11-18)

\*\*Enrollment\*\*: ~950 students

\*\*Uniform\*\*: Regular streetwear (no mandatory uniform - budget cuts eliminated it 2018)

#### #### \*\*Stray Dogs Presence\*\*:

\*\*14 "Ghost Dogs" - Scout/Intelligence Network:

- Not frontline fighters (NEPH Dogs handle that)
- SEPH students who gather intelligence, recruit, maintain early warning system

- Identification: Red shoe laces (subtle), small dog head stitched on hoodie wrist (if you're looking)
- Function: Eyes and ears, track rival gang movements, identify threats before they reach North Ends

**\*\*Why SEPH Dogs Are Different\*\*:**

- SEPH is rougher than NEPH (more gang activity, rival territories nearby)
- SEPH Dogs risk MORE being visible (other gangs recruit from SEPH)
- Ghost Dog status = protection (Stray Dogs will retaliate if SEPH scouts harmed)
- Feed information to Chew-toy (coordinates with NEPH Dogs), Snout (elder oversight)

**\*\*Notable SEPH Locations\*\*:**

- Where Zed was ambushed and dragged (late 2023, rival gang seeking power vacuum)
- Tesco parking lot where Zed was left for dead (abandoned lot behind closed Tesco)
- Multiple rival gang territories border SEPH area

---

**### \*\*WEST END HIGH SCHOOL - "The Wannabes"\*\***

**\*\*Location\*\*:** West End (wealthy district)

**\*\*Type\*\*:** Private comprehensive

**\*\*Enrollment\*\*:** ~580 students

**\*\*Tuition\*\*:** £12,000/year (cheaper than Academy, less prestigious)

**\*\*Character\*\*:**

- Students are wealthy but not ELITE (new money, influencers, celebrities' kids)
- "Street life" cosplay for TikTok/Instagram (performance, not reality)
- Designer streetwear (everything new, expensive, pristine)
- Some students genuinely from West End gangs (like Harper), most are tourists

**\*\*West End Gang Presence\*\*:**

- Not school-affiliated but students recruited from here
- Harper Whitmore was student + gang enforcer
- After Harper's betrayal, school might crack down or produce more recruiters

**\*\*Relationship to Dogs\*\*:**

- View NEPH as "aesthetic" (grey jumpsuits look cool for photos)
- Don't understand Dogs are REAL organization (think it's performance art)
- Harper's transformation shocked them (didn't believe he'd actually betray gang for Dogs)

---

**## \*\*POWER STRUCTURES & TERRITORIES\*\***

### ### \*\*THE FOUR-WAY DIVIDE\*\*:

...

ST. AUGUSTINE'S ACADEMY

(Elite, Navy Blazers)

↓

[THE PLAZA - NEUTRAL GROUND]

/ | \

WEST END NEPH SEPH

(Rich) (Dogs) (Scouts)

...

\*\*Academy\*\* ← → \*\*Plaza\*\* ← → \*\*North Ends (NEPH)\*\*

\*\*West End High\*\* ← → \*\*Plaza\*\* ← → \*\*North Ends\*\*

\*\*South Ends (SEPH)\*\* ← → \*\*Borders\*\* ← → \*\*North Ends\*\*

### ### \*\*Police Presence by Area\*\*:

**Area**	**Patrols/Day**	**Response Time**	**Community Cooperation**
**St. Augustine's**	12+	3-5 minutes	Full cooperation
**West End**	8-10	5-8 minutes	Selective cooperation
**The Plaza**	6	8-10 minutes	Depends on who calls
**North Ends**	4	15-30 minutes	**ZERO** (Silence Protocol)
**South Ends**	3	20-45 minutes	Minimal

### \*\*Why Police Avoid North Ends\*\*:

- Silence Protocol (no witnesses = no arrests)
- Community hostility (not violent, just uncooperative)
- Dogs handle disputes internally (fewer 999 calls)
- Higher crime areas (South Ends) demand resources
- Political pressure (Academy gets priority, North Ends gets neglect)

---

## ## \*\*ECONOMIC LANDSCAPE\*\*

### ### \*\*Income by Area\*\*:

**Area**	**Median Household Income**	**Unemployment**	**Housing**
**West End**	£85,000+	3%	Owned homes, luxury flats
**Academy Area**	£120,000+	2%	Historic estates, gated communities

| **North Ends** | £28,000 | 18% | Council housing, rentals |  
| **South Ends** | £24,000 | 22% | Industrial housing, public housing |

### **Visible Class Markers**:

#### **Academy Students**:

- £450 uniforms (perfectly maintained)
- Latest iPhones (£1,000+)
- Designer bags (not allowed but carried anyway)
- Tutoring (£60/hour, multiple subjects)
- Cars (Year 13 students drive, parking lot full of new cars)

#### **NEPH Students**:

- Grey jumpsuits (free from school but cheap material)
- Older phones (3-4 years old, cracked screens common)
- Generic backpacks (or no bag, carry books)
- No tutoring (can't afford it)
- Public transport (Oyster cards, bus routes)

#### **The Gap**:

This is why Academy students view NEPH as "thugs" and NEPH students resent Academy. Not just attitude - MATERIAL CONDITIONS create division. Grey jumpsuits literally mark NEPH students as "lesser" (prison aesthetic). Navy blazers mark Academy as "superior" (professional aesthetic).

---

### **TRANSPORTATION**

#### **How People Move**:

#### **Academy Students**:

- Cars (Year 13, parents drop off)
- Private cars (hired drivers for wealthy families)
- Tube (but not from North Ends areas)
- Walk (if live near Academy)

#### **NEPH/Dogs**:

- **Bus routes**: 43, 156, 214 (connect North Ends to Plaza)
- **Walk**: Most common (save money)
- **WAG ON**: Dogs' shared vehicle (van/truck, used for operations)
  - Dame drives it most often
  - Painted grey with subtle red dog silhouette on side
  - Used for: shift changes, supply runs, emergency transport

- Example: Zed drove Stray to Plaza in WAG ON after Harper's first night

**\*\*The Plaza as Hub\*\*:**

- All bus routes converge here
- Walking distance from all four schools (10-20 minutes each)
- Geographic center makes it strategic meeting point

---

## ## **\*\*COMMUNICATION NETWORKS\*\***

### **\*\*How Information Flows\*\*:**

**\*\*Stray Dogs Internal\*\*:**

- **\*\*Face-to-face\*\***: Preferred (no digital trail)
- **\*\*Burner phones\*\***: Disposable, encrypted messaging (Signal, WhatsApp)
- **\*\*The Kennel\*\***: Central hub for meetings
- **\*\*Whistles\*\***: Physical signals (Chew-toy's rally whistle brings Dogs together)
- **\*\*SEPH Ghost Dogs\*\***: Intelligence flows from South to North via scouts

**\*\*Academy\*\*:**

- **\*\*School email\*\***: Official communications
- **\*\*Instagram/TikTok\*\***: Social dynamics (Nala's domain)
- **\*\*Prefect reports\*\***: Written citations, filed with administration
- **\*\*Word of mouth\*\***: Gossip, rumors, speculation

**\*\*Community (North Ends)\*\*:**

- **\*\*Shop owners\*\***: Notice unfamiliar faces, spread word
- **\*\*Residents\*\***: Look out for each other, tell Dogs about problems
- **\*\*Kids playing\*\***: See everything, report to older siblings (who are often Dogs)
- **\*\*The Pub\*\***: Snout's intelligence hub (older generation talks)

---

## ## **\*\*CURRENT TENSIONS (FEBRUARY 2026)\*\***

### **\*\*1. The Scraps Situation\*\***

- West End gang wants revenge for Harper's betrayal
- Will they attack The Kennel? Red Light District? Scraps directly?
- Dogs must decide: protect him (strain resources) or let West End have him (betray Stray's claim)

### **\*\*2. The Fountain Incident Aftermath\*\***

- Prefect Leo still furious, writing reports

- Alistair filing them away but under pressure to "do something"
- Nala posting about it constantly (social media attention)
- Could force Academy administration to crack down on Plaza Dog presence

#### ### \*\*3. Alistair's Awakening\*\*

- Head Boy questioning system he's supposed to uphold
- Has red chalk from Z-Artist (symbol of choice he's still making)
- Knows K-9 is bi, knows Stray protects Red Light
- Will he become ally (dangerous for him and Dogs) or return to "proper channels"?

#### ### \*\*4. Stray's Unsustainable Schedule\*\*

- 4 graveyard shifts per week (most dangerous, alone)
- Homeless (sleeps on Plaza bench)
- Everyone knows it can't continue but Stray won't stop
- When will he collapse? What happens to Red Light when he does?

#### ### \*\*5. SD Media Growing Attention\*\*

- K-9's YouTube (hundreds of thousands of followers)
- More visibility = more police attention
- Success brings opportunity BUT risk (larger platform = larger target)

#### ### \*\*6. The 65\*\*

- 64 → 65 (first expansion in years)
- Scraps must prove himself or Dogs shrink back to 64
- Other gangs watching: if Scraps succeeds, shows Dogs can transform enemies (threatens other gangs' recruitment)

---

### ## \*\*VISUAL AESTHETICS BY LOCATION\*\*

#### ### \*\*The Plaza\*\*:

- \*\*Architecture\*\*: Mix of old (Victorian buildings) and new (modern coffee shop)
- \*\*Colors\*\*: Stone grey, coffee brown, fountain blue-green, vendor bright colors
- \*\*Lighting\*\*: Good (safety lights, shops illuminated)
- \*\*Sound\*\*: Mixed (students talking, skateboarding, fountain water, traffic)
- \*\*Feel\*\*: Tense peace, uneasy coexistence

#### ### \*\*North Ends\*\*:

- \*\*Architecture\*\*: 1960s-70s council housing, brick buildings, industrial
- \*\*Colors\*\*: Grey concrete, rust, red SD markings, laundry bright colors
- \*\*Lighting\*\*: Uneven (some streets dark, Dogs maintain lights near Red Light)
- \*\*Sound\*\*: Kids playing, grime music, sirens (distant), shop radios
- \*\*Feel\*\*: Rough but alive, community cohesion, visible poverty but not despair

### ### **\*\*St. Augustine's Academy\*\***:

- **\*\*Architecture\*\***: Gothic Revival, stone, traditional English boarding school aesthetic
- **\*\*Colors\*\***: Navy, grey, white, gold (school colors), green lawns
- **\*\*Lighting\*\***: Excellent (historic fixtures maintained)
- **\*\*Sound\*\***: Classical music (chapel), polite conversation, lacrosse sticks, bells
- **\*\*Feel\*\***: Privilege insulated, tradition enforced, pressure to maintain standards

### ### **\*\*The Kennel\*\***:

- **\*\*Architecture\*\***: Basement (concrete, exposed pipes, soundproofing added)
- **\*\*Colors\*\***: Dark (black walls), red (SD markings), screens glow (blue)
- **\*\*Lighting\*\***: Dim except for work stations (focused task lighting)
- **\*\*Sound\*\***: Soundproof (outside world gone), beats playing, muffled bass
- **\*\*Feel\*\***: Sacred space, refuge, creation hub, dangerous privacy

---

## ## **\*\*SEASONAL/TIME CONSIDERATIONS\*\***

### **\*\*February 2026\*\*** (Current Story):

- **\*\*Weather\*\***: Cold (3-8°C), occasional rain/drizzle, grey skies
- **\*\*Daylight\*\***: Sun rises ~7:15 AM, sets ~5:00 PM (short days)
- **\*\*Impact\*\***:
  - Stray's graveyard shifts are DARK and COLD (2-6 AM in winter)
  - Plaza less crowded (people stay inside when possible)
  - Fewer witnesses to Dog operations (darkness helps)
  - Homeless population struggling (Stray included)

### **\*\*Academic Calendar\*\***:

- **\*\*Current\*\***: Spring term (January-April)
- **\*\*Upcoming\*\***: A-Level exams (May-June) for Year 13 (Rax, K-9, Alistair, Nala)
- **\*\*Pressure\*\***: Students stressed, less monitoring of Plaza, Dogs have more freedom

---

This world is LIVED-IN, DETAILED, and BELIEVABLE. Every location has purpose, every class marker has meaning, every choice reflects larger systemic issues. The Plaza isn't just a meeting point - it's the ONLY place the system lets different classes coexist. North Ends isn't just poor - it's strategically neglected. The Academy isn't just rich - it's grooming the next generation of people who will continue that neglect.

**\*\*The world IS the conflict.\*\***

## STRAY DOGS - COMPLETE ORGANIZATIONAL BREAKDOWN

The 65 - Structure, Culture, Operations, Philosophy

## FOUNDING & HISTORY

### 2020 - THE BEGINNING

Founders (The Original Three):

Big 9 (then 22) - Vision, leadership, music industry connections

Dame (then 29) - Operations, art, legitimacy (famous videographer)

Snout (then 39) - Community relations, intelligence, elder wisdom

Why They Started:

Red Light District Protection: Sex workers being exploited by multiple gangs (violent pimps, extortion)

Community Need: North Ends had NO protection (police response slow/non-existent, other gangs predatory)

Big 9's Vision: "What if protection was REAL? What if we served community instead of controlling it?"

Dame's Legitimacy: Her videographer career gave Dogs business front (SD Media)

Snout's Network: Decades in North Ends, knew everyone, could build Silence Protocol

The Name: "Stray Dogs"

Dogs that survive without masters

Pack that chooses each other (not born into it)

Strays = overlooked, underestimated, discarded by system

Loyal, protective, dangerous when necessary

First Operations:

3 shifts per day at Red Light District (Morning/Afternoon/Graveyard)

Fair percentage payment from workers (15% vs. other gangs' 40-60%)

Real protection (intervening in violence, not causing it)

Community trust built slowly (proving they weren't exploiters)

Early Growth (2020-2022):

Started with 12 members (founders + early recruits)

Grew to 35 by 2022 (word spread, community vouched for them)

Established Silence Protocol (Snout's relationship-building paid off)

SD Media became legitimate (Big 9's music career gave credibility)

### 2022 - THE EXPANSION

Major Recruits:

Zed Kidd (age 15) - Recruited with Chew-toy

Chew-toy (age 16) - Recruited with Zed

Possibly others who form current 30 NEPH Dogs

Why This Mattered:

Zed brought strategic mind (future Underboss material)

Chew-toy brought organizational skills (future Operations manager)

Younger generation = Dogs' future (Big 9 planning long-term)

### MARCH 2023 - THE CATALYST

Multiple Critical Events:

Stray's Father Killed:

Captain Marcus Shaw (HM Royal Guard) killed in caravan ambush

15-year-old Stray (military school student) witnessed from distance  
Big 9 prevented Stray from running into fight (saved his life)  
Days later: Stray appeared at Red Light District wearing father's jacket  
Big 9: "Come find me when you're ready. North Ends. Red Light District. Stray Dogs."  
K-9 Kidnapped:  
Three pimps kidnapped K-9 (Big 9's younger brother) for leverage  
Big 9 killed ALL THREE pimps to save him  
K-9 officially joined Dogs after rescue  
K-9 released first studio hit (became YouTube famous)  
Recording Sessions:  
Big 9 and Stray recorded multiple tracks ("SD Connections," "Chalk & Crown")  
Dame filmed everything (Stray was verbal, professional-level MC)  
This footage still exists (corrupted to preserve despite Big 9's deletion order)  
Impact: March 2023 set everything in motion - Stray's transformation, Big 9's eventual arrest,  
K-9's rise, SD Media's expansion  
LATE 2023 - THE BREAKING  
Big 9's Arrest (6 months after pimp murders):  
Metropolitan Police investigation caught up  
Big 9 arrested, charged with three counts of murder + organized crime  
Took the fall to protect K-9 (claimed self-defense, failed in court)  
Sentenced: Whole Life Order (life without parole, Wormwood Scrubs Prison)  
K-9's guilt: "My brother's doing life because of me"  
Immediate Effects:  
Dame broke down (Stray held her while she cried for hours)  
K-9 locked in studio (2 weeks, wrote 16 tracks, emerged transformed)  
Stray's tinnitus locked at catastrophic level (sound of raid, never faded)  
Dogs galvanized (instead of collapsing, became MORE determined)  
Rival gangs sensed weakness (began testing boundaries)  
One Week After Arrest - ZED'S DRAG:  
The Ambush (South London):  
Zed on recon, tracking rivals seeking power vacuum  
6 men with van jumped him  
Chain tied to ankle, thrown from moving vehicle  
Dragged at 40 mph for 3 BLOCKS through South London streets  
Face scraped across asphalt (cheekbone visible, jaw destroyed, eye damaged)  
Back shredded (skin flayed off, asphalt embedded in muscle)  
Left for dead in Tesco parking lot  
Recovery:  
Dame + Needles stabilized him  
Medical room at The Kennel (Dame set it up)  
First words after waking: "...don't let... Rax... see..."  
Weeks of recovery, near-fatal blood loss  
Stray changed bandages 4x daily (only one who could look at injuries without breaking)  
Survival through pure will (medically shouldn't have lived)

Stray's Response:

Stopped rapping completely after seeing Zed's injuries

Began speaking less and less

The horror of Zed's drag + Big 9's absence + tinnitus = cascading trauma

Weeks After - ASH'S DEATH:

The Night (2:47 AM, Red Light District):

Ash (19-year-old callboy) killed by client Stray had cleared

Three doors down from Stray's position

Gunshot heard even through headphones/tinnitus

Stray found him bleeding out: "Stray—I can't—I can't breathe—"

Died in Stray's arms, client escaped

Stray's Final Break:

Stopped speaking except when absolutely necessary

Words felt like LIES if they couldn't save people

Three doors. That's all. Three doors between him and failure.

Transformation complete: Verbal Stray → Silent Sentinel

2024 - REORGANIZATION

Leadership Changes:

Zed becomes Underboss candidate (recommended by Snout and Dame)

Chew-toy takes Operations (Dame's successor for daily management)

K-9 becomes Public Face (SD Media explosion, hundreds of thousands of followers)

Major Recruitment Wave:

Most of current 30 NEPH Dogs joined this year

SEPH Ghost Dogs network formalized (14 scouts)

Dogs grew from ~40 to 64 members

Why growth: Big 9's arrest showed vulnerabilities, needed more bodies

SD Media Breakthrough:

K-9's YouTube channel exploded (became legitimate grime scene presence)

Dame's videography skills + K-9's talent = professional product

Prophet (lyricist) and Cipher (digital) joined team

Cultural influence = Dogs aren't just gang, they're MOVEMENT

Stray's Role:

Working graveyard shifts (most dangerous, alone)

Progressively more silent (only speaks when necessary)

Most Dogs only know him as "quiet NEPH kid on graveyard"

High command knows his significance (Zed, Dame, Chew-toy, Snout)

FEBRUARY 2026 - CURRENT MOMENT

The 64 Becomes 65:

Harper "Scraps" Whitmore (former West End enforcer, marked enemy)

Betrayed own gang to protect Stray (twice)

Zed accepted him conditionally on TIMTIMS rooftop

Added 65th tally mark to chalk mural

Now heading to Kennel (must meet Dame, face Dogs he hurt)

Current State:

Big 9 still imprisoned (Dame visits regularly, fights for appeals)  
Zed leading as Underboss (post-drag, scarred, strategic)  
K-9 driving SD Media (legitimate cultural force)  
Stray working unsustainable schedule (4 graveyard shifts/week)  
West End gang seeking revenge (Scraps' betrayal)  
Dogs stronger than ever despite challenges

## ORGANIZATIONAL STRUCTURE

HIERARCHY (Informal but Real)

HIGH COMMAND (5)

Big 9 (Imprisoned - Spiritual Leader)

Dame (Operations/Strategy)

Snout (Community/Intelligence)

UNDERBOSS (1)

Zed (Strategic Leadership, Snout's Successor)

OPERATIONS MANAGER (1)

Chew-toy (Daily Coordination, Dame's Successor)

PUBLIC FACE (1)

K-9 (SD Media, Cultural Influence)

EMBEDDED AGENTS (2)

Rax (St. Augustine's - Intelligence)

K-9 (St. Augustine's - Cover/Intelligence)

FRONTLINE NEPH DOGS (30)

- |— Enforcers (8): Ruckus, others
- |— Intelligence (6): Whistle, others
- |— Specialists (4): Matches, Needles, others
- |— General Ops (12): Standard protection/territory

SEPH GHOST DOGS (14)

Intelligence network, early warning, scouts

BACKGROUND/SUPPORT (14)

Stray, mechanics, suppliers, logistics

NEW MEMBER (1)

Scraps (conditionally accepted, must prove)

## ROLES EXPLAINED

HIGH COMMAND:

Make strategic decisions (territory, operations, recruitment)

Represent Dogs to community (Snout), media (Dame), internally (Big 9's philosophy)

Handle crises (arrests, attacks, betrayals)

Plan long-term (succession, growth, sustainability)

UNDERBOSS (Zed):

Day-to-day strategic leadership (when high command not present)

Coordinates between high command and operations

Makes tactical decisions (who goes where, when, why)

Successor to Snout (will take intelligence/community role eventually)

Authority: Second only to high command, can overrule operations manager

OPERATIONS MANAGER (Chew-toy):

Manages 30 NEPH Dogs (schedules, assignments, conflicts)

Coordinates with SEPH Ghosts (intelligence flow)

Handles logistics (supplies, transport, communication)

Mediates disputes (between Dogs, before escalation)

Succession: Will take Dame's operations role

PUBLIC FACE (K-9):

SD Media (YouTube, Instagram, TikTok, music production)

Cultural influence (shows Dogs as artists, not just gang)

Community voice (represents North Ends to wider world)

Legitimate cover (independent grime label with real success)

EMBEDDED AGENTS (Rax, K-9):

Intelligence gathering (what Academy knows, plans, weaknesses)

Maintain cover (Rax as athlete, K-9 as reformed student)

Strategic positioning (access to elite spaces Dogs normally couldn't reach)

Report to: High command (bypassing normal chain for sensitive intel)

FRONTLINE NEPH DOGS (30):

Visible presence (grey jumpsuits with red markings)

Daily operations (protection, territory, conflicts)

Community interface (people see THEM, not high command)

Specialized roles:

Enforcers: Handle physical confrontations (Ruckus)

Intelligence: Gather information, observe patterns (Whistle)

Specialists: Unique skills (Matches - chaos, Needles - medical)

General: Standard Dog work (protection shifts, patrols)

SEPH GHOST DOGS (14):

Intelligence network (eyes and ears in South Ends)

Early warning (track rival gangs, threats before they reach North Ends)

Subtle identification (red shoe laces, small dog head on hoodie)

NOT fighters (scouts, not soldiers)

Feed information to Snout/Chew-toy

BACKGROUND/SUPPORT (14):

Keep Dogs running (mechanics, supplies, logistics)

Includes Stray (despite significance, he's "background" to most)

Maintain safehouses (3 buildings at Red Light District)

Handle transport (WAG ON maintenance, drivers)

Suppliers (food, medical, equipment for Kennel)

NEW MEMBERS:

Must be accepted by high command (or underboss with high command approval)

Conditional period (prove loyalty before fully trusted)

Mandatory tattoo from Dame (marks official membership)

Assigned mentor (usually who claimed them - Scraps = Stray's responsibility)

CORE PHILOSOPHY

"LEAD BY DOING, NOT ASKING" - Big 9's Foundation

What It Means:

Take worst shifts yourself FIRST (before asking others)

Actions matter more than commands (show, don't tell)

Sacrifice for pack without demanding recognition (do it because it needs doing)

Protect based on NEED, not tribe/loyalty (help those who need it, even enemies)

Examples in Practice:

Stray: Takes 4 graveyard shifts (most dangerous, alone) without complaining

Big 9: Took Whole Life Order to protect K-9 (ultimate sacrifice)

Zed: Became Underboss while broken from drag (leads despite trauma)

Dame: Runs operations while Big 9 imprisoned (picks up weight without being asked)

Chew-toy: Manages 30 Dogs' wellbeing (supports without controlling)

Scraps Example: Stray protected enemy twice, gave away father's coat (need-based protection)

Why It Works:

Earns respect through DEMONSTRATION (can't argue with actions)

No hypocrisy (don't ask what you won't do yourself)

Creates culture of mutual sacrifice (everyone carries weight)

Pack knows leadership SHARES burden (not just commands from safety)

Trust built through proof, not proclamation

Contrast to Other Gangs:

Other gangs: Command from top, expect obedience

Dogs: Lead from front, inspire through example

Other gangs: Demand loyalty

Dogs: Earn it daily

"PROTECT BASED ON NEED, NOT TRIBE" - Expansion of Philosophy

What It Means:

Protection isn't reserved for Dogs only

If someone NEEDS protection, provide it (even enemies)

Community protection, not just pack protection

Need > Loyalty > Tribe > Affiliation

Examples:

Red Light Workers: Not Dogs, but protected (they need it, Dogs provide)

Harper/Scraps: Enemy who hurt Dogs, but NEEDED protection (Stray provided)

Community: North Ends residents not in gang, but Dogs protect them

Not Police Logic: Police protect property/order, Dogs protect PEOPLE

Why This Matters:

Separates Dogs from predatory gangs (protection vs. exploitation)  
Builds community trust (people know Dogs serve THEM, not just themselves)  
Allows transformation (enemies can become allies if shown mercy)  
Philosophical evolution of gang concept (mutual aid, not organized crime)

#### THE SILENCE PROTOCOL - Community Loyalty

##### What It Is:

Entire North Ends community refuses to cooperate with police investigations  
"No comment" to media (BBC got silence asking about Dogs)  
Shop owners, workers, families, residents - ALL refuse testimony  
Even non-Dogs maintain silence

##### Why It Exists:

Dogs protect community GENUINELY (not exploitation, real safety)  
Red Light workers safer with Dogs (violence down 73% since 2020)  
System failed North Ends (police slow, don't care, Academy gets priority)  
Dogs filled vacuum (community chose them over system)  
Community knows: Removing Dogs makes everyone LESS safe

##### How It's Maintained:

Snout: Decades of relationships, treats people with respect  
Dame: Community trusts her (famous videographer, gives back)  
Every Dog: Through daily actions (protecting, not exploiting)  
Community Choice: Not enforced through fear (people WANT to protect Dogs)

##### Strength:

Police can't arrest without witnesses (Silence Protocol prevents testimony)  
Can't convict without evidence (community won't provide)  
Larger gangs can't break it (built on consent, not fear)  
Unbreakable because it's CHOSEN (not coerced)

##### Example (Radio broadcast, current story):

"Nation Officials ask North Ends community to assist in reports of gang colloquially known as Stray Dogs. North Ends Community refuses to assist with any investigation and when asked for comment by BBC we were met with silence."

This is the Protocol in action.

#### SD MEDIA - LEGITIMACY & CULTURAL POWER

##### What It Is:

Independent grime rap label (legitimate business, not front)  
Founded 2020 by Big 9 (vision: give North Ends youth alternative path)  
Became REAL under K-9's leadership (hundreds of thousands of YouTube followers)

##### Team:

K-9: Face, artist, performer (YouTube famous grime rapper)  
Dame: Producer, videographer, director (all visual content, world-class)  
Prophet: Lyricist (writes K-9's verses, philosophical depth)  
Cipher: Digital presence (handles social media, uploads, algorithm strategy)  
DJ Drool/Tags: Beatmaker, producer tags

##### Function (Multiple Purposes):

Cultural Influence: Shows North Ends as artists, culture, talent (not just "thugs")

Alternative Path: Youth can join Dogs through music (not just violence)

Community Voice: SD Media speaks FOR North Ends (to wider world)

Legitimate Income: Dogs have real money (independent success)

Cover Operation: Business front still functions (but now it's REAL business)

Recruitment: Youth see Dogs as more than gang (cultural movement)

Why It Works:

K-9's genuine talent (professional-level MC, not amateur)

Dame's videography skills (legitimately famous before Dogs)

Prophet's lyrical depth (philosophical, political, technical)

Cipher's digital savvy (algorithms, platforms, growth strategy)

Tech N9ne connection (Strange Music influence, independent label philosophy)

Impact:

Hundreds of thousands of YouTube followers (legitimate fanbase)

UK grime scene recognition (K-9 could collaborate with Skepta, Stormzy)

North Ends pride (community sees themselves represented positively)

Police attention (success brings visibility, double-edged sword)

Tracks (Notable):

"CYANIDE SHINE" - K-9's bisexuality coded, coming out story

"NEST CREASE" - K-9 defending Rax, boyfriend rumors

"DOING TIME" - Big 9/Dame/Zed, tribute to founder

"STRANGE STRAY" - Tech N9ne connection, Strange Music influence

"THE DARKEST LIGHT" - Fibonacci structure, technical mastery

Many others (K-9 wrote 16 tracks in 2 weeks after Big 9's arrest)

OPERATIONS

RED LIGHT DISTRICT PROTECTION - "THE HYDRANT"

Location: 6-block area in North Ends, centered on Hydrant Street

Workers: ~40 sex workers (call boys AND call girls, both protected equally)

Shift System:

MORNING (6 AM - 2 PM): 3 Dogs

- Quietest shift, cleanup, security checks

- Training shift (newer Dogs assigned here)

AFTERNOON (2 PM - 10 PM): 3 Dogs

- Moderate activity, pre-evening rush

- Experienced Dogs (handle negotiation/conflict)

GRAVEYARD (2 AM - 6 AM): Stray (alone) + Whistle/Needles (floating)

- MOST DANGEROUS: Drunk clients (weekend), police active (weekday)

- Only Stray works solo (Chew-toy negotiated backup)

- Stray's shifts: Friday, Sunday, Thursday, Tuesday (4/week)

How Protection Works:

Payment: Workers pay 15% of earnings (industry standard, NOT exploitation)

Other gangs charge 40-60% (Dogs are FAIR)

Money goes to: Dog operations, community support, medical supplies

Screening: Dogs assess clients visually (body language, known troublemakers banned)

Presence: Visible but not intrusive (3-door radius maximum)

Emergency System: Workers whistle, Dogs respond within 30 seconds

Escort Service: Dogs walk workers home after shift (if requested)

Medical Support: Needles handles basic first aid, STI testing coordination

Legal Support: Dame has lawyer contact (arrests, bail, harassment)

Why It Works:

Workers are SAFER: Violence down 73% since Dogs took over (2020)

Fair pricing: 15% is reasonable vs. exploitation rates

No exploitation: Dogs don't pimp, don't force work, don't control workers

Community trust: Workers are North Ends residents (Dogs protect neighbors)

Police can't touch it: Silence Protocol (no witnesses, no testimony)

Notable Locations:

The Steps: Where Stray found Harper week 1 (abandoned by West End)

Three Doors Down: Where Ash was killed (Stray's haunting)

Safe Houses: 3 buildings Dogs own (workers can retreat if threatened)

Stray's Role:

Graveyard shift (2-6 AM, most dangerous)

4 nights per week (Friday/Sunday/Thursday/Tuesday - deliberate choice of hardest nights)

Works alone (with Whistle/Needles floating nearby - compromise with Chew-toy)

Expert lip-reader (tracks multiple conversations simultaneously from 30+ feet)

De-escalation specialist (presence as weapon, violence only when forced)

Sleeps on Plaza bench between shifts (homeless, unsustainable)

TERRITORY CONTROL

North Ends (Complete Control):

ALL of North Ends under Dog protection

45,000 residents

Community consent-based (not fear-based)

Visible presence (30 NEPH Dogs in red-marked jumpsuits)

Silence Protocol (community refuses police cooperation)

How Dogs Hold It Despite Small Numbers:

Community Consent: North Ends CHOOSES Dogs (would fight for them)

Protection Model: Real safety, not exploitation (earned trust)

Cultural Influence: SD Media gives alternative identity (pride, not shame)

Strategic Intelligence: SEPH Ghosts + community eyes = total information

Tactical Brutality: When necessary, Dogs are MORE brutal than larger gangs (send clear messages)

Larger Gangs Face Neighborhood: Not just 65 Dogs, but thousands of residents

Borders:

North to Academy: The Plaza (neutral ground, monitored by Prefects)

West to West End: Contested border (West End gang territory)

South to South Ends: SEPH Ghost Dogs provide buffer/intelligence

East to Industrial: Less defined (low gang activity)

Contested Areas:

Plaza (neutral ground, no gang claims it officially)

West End borders (where Harper's crew operated, tension high)

## INTELLIGENCE NETWORK

Sources:

SEPH Ghost Dogs (14 scouts):

Track rival gangs in South Ends

Early warning system (threats before they reach North Ends)

Recruitment observation (identify potential Dogs)

Feed to: Snout (intelligence coordinator), Chew-toy (operations)

Community Eyes:

Shop owners notice unfamiliar faces

Kids playing see everything (report to older siblings who are Dogs)

Workers at Red Light (observe clients, patterns, threats)

Older residents talk to Snout at pub (Marlowe Arms)

Embedded/Public (3):

6. K-9 (Public Face)

7. Rax (Embedded Academy)

8. (K-9 also embedded, counted above)

NEPH Frontline - Named (4):

8. Ruckus

9. Whistle

10. Matches

11. Needles

NEPH Frontline - Unnamed (26):

12-37. Various enforcers, scouts, specialists, general ops

SEPH Ghost Dogs (14):

38-51. Intelligence network, scouts

Background/Support (13):

52. Stray (despite significance, background to most)

53-64. Mechanics, suppliers, drivers, safehouse keepers, logistics

New Member (1):

65. Scraps (conditionally accepted)

## FUTURE TRAJECTORY

Best Case Scenario:

Scraps proves loyalty (West End retaliation defeated)

Stray accepts help (schedule becomes sustainable)

K-9's SD Media continues growing (cultural influence expands)

Alistair becomes ally (provides Academy intelligence/protection)

Big 9's appeals succeed (founder returns - unlikely but possible)

Dogs maintain North Ends (community loyalty holds)

Worst Case Scenario:

Scraps betrays (Stray's judgment destroyed, morale shattered)

West End war (65 vs. hundreds, Dogs overwhelmed)

Silence Protocol breaks (one witness, arrests cascade)

Stray collapses (Red Light unprotected, community endangered)

Alistair investigates (Rax/K-9 exposed, embedded agents lost)

Police breakthrough (high command arrested, Dogs leaderless)

Most Likely:

Scraps proves himself slowly (some Dogs accept, some don't)

West End retaliates but Dogs defend (stalemate, tension continues)

Stray burns out but survives (forced to accept help)

SD Media grows (brings benefits AND risks)

Alistair remains conflicted (neither full ally nor enemy)

Dogs maintain North Ends but face ongoing challenges

THE STRAY DOGS aren't just a gang. They're a PHILOSOPHY in action. They're proof that protection can be based on consent, not fear. They're 65 people (now) who chose each other over blood, who lead by example, who turn enemies into family through radical mercy.

They're strays who became a pack.

And that's why they survive.
